

HEL-433-BNC Helical Antenna with BNC Connector

DESCRIPTION

A compact helical wound antenna that is well suited for fixed and mobile applications. The flexible overmold provides excellent durability. Terminated with a BNC connector makes this antenna suitable for a wide variety of UHF communications equipment.

Specifications:

Frequency: 433.92 MHz

Polarity: Vertical

Gain: 2dBi

VSWR: 1.5:1

Connector Type: BNC

Power: 35 watts

Impedance: 50 ohms
